Down, down, down. Would the fall never come to an end! "I wonder how many miler I've fallen by this time?" she said aloud. "I must be getting somewhere near the centre of the earth. Let me see: that would be four thousand miler down, I think-" (for, you see, Alice had learnt several things of this sort in her lessons in the schoolnoom, and though this was not a very good opportunity for showing off her knowledge, as there was no one to listen to her, still it was good practice to say it over) "-yes, that's about the night distance-but then I wonder what Latitude or Longitude I've got to?" (Alice had no idea what Latitude was, or Longitude either, but thought they were nice grand words to say.)
