n, down. Would the fall never come to onder how many miles I've fallen by this hid aloud. 'I must be getting somewhere ntre of the earth. Let me see: that would be nd miles down, I think-' (for, you see, Alice everal things of this sort in her lessons in bom, and though this was not a very good for showing off her knowledge, as there to listen to her, still it was good practice er) '-yes, that's about the right distancevonder what Latitude or Longitude I've got ad no idea what Latitude was, or Longitude hought they were nice grand words to say.)
